

» Product infeed / hopper

» Product grouping

» Case erecting

» Stamp for bottom flap sealing

Fully-automatic Casepacker oli 210 V - Top Loading

This installation consist of the following modules:

- » Product infeed and grouping module **oli 210 V**
- » Case erector / sealer **olimat 1A**

The **oli-pal** or the **oli-pal Duplex** compact palletiser extend the **oli 210 V** to operate as a fully automatic final packaging line.

General Information:

Can be applied in all industries. Pharmaceutical compliant GMP, compact and space-efficient design. Superior workmanship/material quality and refined operationability in all details:

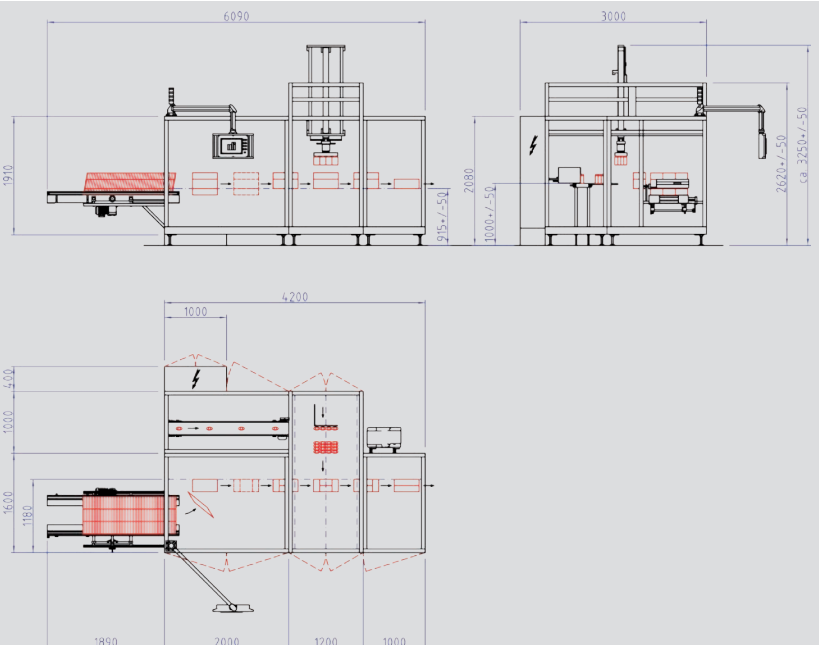

- » All components are readily accessible
- » Easy to clean
- » Especially compact design
- » Operator panel with multi-lingual text display or touchscreen panel
- » Quick format change
- » Servo motors drive all relevant motion, state-of-the-art PLC control system
- » Practically maintenance free

Technical Information:

Output: max. of 15 loading cycles/min
 Multiple loading capability feasible to increase output
 Format range: to customer preference
 Operating voltage/required power: 3 x 230/400 V/N/PE, 50/60 Hz, 1 kVA
 Air pressure: 3 - 6 bar
 Floor layouts: Left or right-hand variants to customer preference
 Change over time: approx. 5 - 20 min

Note:
 oli packaging machinery is customized in terms of output, colour, installed load, etc., to suit the specific customer application. All machinery can be designed inversely for every format.
